**DETAILED ACTION**

***Election/Restrictions***

1. Claims 1, 15 and 29 are generic to the following disclosed patentably distinct species:
  - A. Species of FIGS. 1-2.
  - B. Species of FIGS. 3-4.
  - C. Species of FIGS. 5-6.
  - D. Species of FIGS. 7-9.
  - E. Species of FIGS. 10-11.
  - F. Species of FIG. 12.
  - G. Species of FIGS. 13-14.
  - H. Species of FIG. 15.
  - I. Species of FIG. 16.
  - J. Species of FIGS. 17-18.
  - K. Species of FIG. 19.
  - L. Species of FIG. 20.
  - M. Species of FIG. 21.
  - N. Species of FIG. 22.
  - O. Species of FIG. 23.
  - P. Species of FIGS. 24-25.
  - Q. Species of FIG. 26.
  - R. Species of FIGS. 27-28.
  - S. Species of FIGS. 29 and 34.

- T. Species of FIG. 30.
- U. Species of FIGS. 31 and 33.
- V. Species of FIG. 37.
- X. Species of FIG. 41.
- Y. Species of FIGS. 42-43.
- Z. Species of FIG. 44.

The species are independent or distinct because each of them has either a mechanical or an optical features not required by others. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and

Art Unit: 2674

specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Eisen whose telephone number is (571) 272-7687. The examiner can normally be reached on M-F (9:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard A. Hjerpe can be reached on (571) 272-7691. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
